Democratic Ticket

ELECTION TUESDAY, NOV. 2D.

For President
JAMES M. COX
of Ohio.

For Vice President
FRANKLIN D. ROOSEVELT
of New York.

For Member of Congress
H. D. FLOOD
of Appomattox

Mr. Flood's speech to the Democrats at the Courthouse Saturday evening was convincing and aroused much enthusiasm. The house could not hold the crowd, although no notice had been given of the meeting. He is now in the campaign in other sections of the State. All Appomattox Democrats are expected to present themselves at their respective precincts next Tuesday, Nov. 2nd, and vote the straight Democratic ticket without scratching any of the nominees. You cannot do less if you are a Democrat. If your wife is registered bring her along and we are sure she will vote for the party of peace and economy.

Highway Department Getting Busy

With the rapid development and radical changes in high way transportation in recent years, types of roads built from 1906 to 1918 by the State Highway Department, cooperating with the counties, under the system in force until the establishment of the State System by the Assembly of 1918, have proved wholly inadequate in meeting existing traffic conditions.

This was today pointed out by State Highway Commissioner Coleman in announcing the number of miles of improved roads constructed by the Department in the State System in the Lynchburg-Danville-Roanoke section. Under the old system, Commissioner Coleman said, ordinary waterbound macadam, and in many instances soil and sandclay high ways were built, and time has shown that construction of this type will not stand up under the heavy highway traffic of today. It should also be remembered by the public, the Commissioner said, that although there has been constructed in one-half the one hundred counties of the State something over 5,000 miles of the types of road mentioned, very few of these sections have actually been connected up into what might be termed "through highways". Even where this is the case, it is pointed out, it is exceedingly difficult to maintain the macadam and gravel roads under existing traffic conditions, even where they have been surface treated.

The Highway Department is, however, making every effort to maintain such of these roads as have been made a part of the State System, the general plan calling for the resurfacing of these roads with higher types of construction as soon as adequate funds therefor are provided. The Commissioner, in a recent statement to the press, submitted estimates showing that under the present financial plan made by the general Assembly it will take from sixteen to eighteen years to construct the roads laid out by the General Assembly in 1918. Should the amendment to the constitution, to be voted on in the November election carry, and the General Assembly of 1920 issue bonds, the work can be accomplished within a period of six years, according to careful estimates made by officials of the Department.

In the Lynchburg Roanoke-Danville subdivision, a soil road between Danville and Martinsville has been completed and a section of six miles west of Martinsville is under contract. In conjunction with Hanry County, there has also been completed a section running south to the Carolina border and north to the Franklin County line.

Has under contract a section of bituminous road from Danville south to the North Carolina line, and has just completed a section north from Danville. It is the intention of the Department to let another section between Danville and Chatham during the coming spring, and it is understood plans are now being perfected whereby the Department, in connection with the counties of Pittsylvania and Campbell, and private interests, will be able to let to contract the section from Chatham north to connect with work which is now under way south from Lynchburg.

Has under contract a section of road between Lynchburg and Rustburg, and will let an extension of this during the coming spring. Also expects to let a section of the road north from Brookneal.

Will let to contract shortly a section just west of Farmville on the Lynchburg road, and has under contract a section of bituminous road on the route between Lynchburg and Natural Bridge, through Greensboro. Expects to let to contract during the coming season a short section of road, together with the bridge across James River on the Lynchburg - Natural Bridge Route. It is also probable, in cooperation with the Forestry Department, to get under way a section of road through the Natural Bridge Forestry area on this same route.

Is resurfacing the road between Amherst and Lynchburg and has under construction a section of this route from Lovingston south, and expects to let to contract in the near future the section from Clifford north, which will connect these two sections up and give a road between Lovingston and Lynchburg.

Is resurfacing and widening the road between Roanoke and Salem and has under contract a section of road west of Salem, and expects to let to contract an extension of this towards Christiansburg during the coming spring. Also expects to let to contract a section of road which will connect Catawba Sanatorium up with Salem and Roanoke

Display of Candy—Florence Caldwell, 1st; Margaret Hancock, 2nd

Buckingham

Weather conditions usually change before a weekly paper can publish what a writer has to say; but the month of October has been noted for unprecedented warm weather; indeed the days have been hot and teams perspire at work more than they did in the summer.

Two reliable men, one a farmer and the other a lawyer, told me that corn was being sold along James river valley as low as $4.50 a barrel. In some places the corn on North river and Slate river is hardly worth gathering, as it was ruined by the two big freshets we had in summer.

The young man, George Gough, who is in jail in Richmond charged with killing young Oliver, is a son of the late Joseph Gough of this county.

A lot of young men were up before Justice Moss here on Saturday charged with disorderly conduct and were sent on to the grand jury. It is said that they broke the door down at the home of an ignorant colored girl and ran a man off who was staying there.

The coming event which casts its shadow before it is the County fair and School fair which are to be held here Nov. 3rd and 4th.

Mr. Sadler, pastor of the Baptist church here, had a young man to help him preach the past week and the meeting closed Friday night.

Dr. Perkins Glover, of Arvonia, is to have Hon. H. D. Flood as his guest the night he speaks at Arvonia.

Misses Willie Glover and Fannie Haskins spent a part of last week visiting in the home of Dr. Perkins Glover.

Judge A. S. Hall is still in Atlanta and the earnest hope of his many friends here is that he may soon be well.

Mr. Robert Gough is getting well after having a severe case of small pox.

Immense quantities of sorghum is being made up and the price now seems to be $1 a gallon.

A new bridge has been built across North river near Katrine postoffice.

Mrs. P. P. Glover and the Misses Swoope visited at the home of Mr. John Swoope in Cumberland county last Sunday.

Farmers are hoping for frost to come for several reasons—1st the corn that is not entirely dry needs it, and wheat and oats that were seeded early need it.

Sportsmen will soon be hunting birds and they have increased very much this season. Bad marksmen had best let the luscious food bird alone this time, as the cartridges are too expensive to use unless a man has plenty of money.

Hides selling at 7 cents a pound and leather at $1.25 a pound and shoes at $5 to $15 a pair. Someone must be making money fast.

Apples that were gathered early are getting mellow and we are putting them in cans that cost $1.50 a dozen

There is great scarcity of flour barrels at the local mills and they say that new barrels are selling for $1 each

Much less fertilizer is being used on wheat this time than usual, owing to the big advance in price; acid phosphate is selling for $35 a ton, time price, and wheat fertilizer is selling as high as $50 a ton. This with the sharp decline in the price of wheat would indicate that there would not be much profit in sowing wheat this time

No Republican, it seems, had the temerity to run for congress in the Tenth district. Ever and anon some scion of the G. O. P. rises up and gets his name on the ticket, whether to gain prestige and be in line for some sugared plum of an appointment—should the national Republican ticket win—or whether to show his strength—or weakness—in his district, we wot not. Cestes est our gallant standard-bearer needs no boosting at my hands.

Sad and serious I have to report the death of Mr. John Fitzpatrick, which took place at his home one day week before last. Report says he was firing tobacco and the house in some way caught on fire and he was burned to a crisp in the house. Mr. Fitzpatrick had been an inmate of the Western State Hospital, and while his mental condition must have improved, or he would not have been sent home, but both the doctors who served on the Commission of lunacy when he was sent to Staunton expressed the opinion that his mind would never be entirely restored.

Yes Sir-ee!

We made this cigarette to meet your taste!

Camel CIGARETTES

CAMELS have wonderful full-bodied mellowmildness and a flavor as refreshing as it is new.

Camels quality and Camels expert blend of choice Turkish and choice Domestic tobaccos win you on merits. Camels blend never tires your taste. And, Camels leave no unpleasant cigaretty aftertaste nor unpleasant cigaretty odor!

What Camels quality and expert blend can mean *to your satisfaction* you should find out at once! It will prove our say-so when you *compare Camels with any cigarette in the world at any price!*

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes; or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.

We Like to Help Young Men!

The young man is an object of particular interest to this Bank. We want to help him to get a start and then to get ahead.

The future of our country is in the hands of its young people. Many of them do not seem to realize their responsibility as young citizens of the Greatest Country in the world. Happily, however, there are a great many who do, and when we see young people who seem to appreciate duty, who have ambition and energy, then there is pleasure in watching them and in helping them.

Was Very Weak

"After the birth of my baby I had a back-set," writes Mrs. Mattie Crosswhite, of Glade Spring, Va. "I was very ill; thought I was going to die. I was so weak I couldn't raise my head to get a drink of water. I took . . . medicine, yet I didn't get any better. I was constipated and very weak, getting worse and worse. I sent for Cardui."

TAKE
CARDUI
The Woman's Tonic

"I found after one bottle of Cardui I was improving," adds Mrs. Crosswhite. "Six bottles of Cardui and . . . I was cured, yes, I can say they were a God-send to me. I believe I would have died, had it not been for Cardui." Cardui has been found beneficial in many thousands of other cases of womanly troubles. If you feel the need of a good, strengthening tonic, why not try Cardui? It may be just what you need.

A Beautiful, Long-lived Roof—Certain-teed Shingles

Certain-teed Asphalt Shingles, in subdued reds or greens, add an attractive touch to the appearance of any home. Their surface does not wear off, wash off or change color and they do not crack or break.

In addition to their beauty, they provide weather protection and are, at the same time, fire-retarding and spark-proof.

Their cost is low compared with other equally high grade types of roofing and they are guaranteed for ten years.

In addition to shingles, Certain-teed Roofing comes in rolls, mineral-surfaced red or green—much like the shingles in appearance—and also in the smooth surface staple gray kind.

Like all products bearing the Certain-teed label, Certain-teed Roofings are the highest quality.

See a Certain-teed dealer the next time you need roofing. He can help you select the best kind of roofing for your purposes and sell you what you need at a real saving in cost.
